SUMMARY

Full Stack Engineer and Computer Engineering Graduate, results-oriented Software Engineer with specialized experience in the MERN stack (MongoDB, Express.js, React, Node.js), and Next.js, as well as AI model integration. Proven track record of optimizing web performance and deploying scalable RESTful APIs. Adept at collaborating in Agile environments to deliver robust solutions for e-commerce and financial tech sectors.

SKILLS

- Full-Stack Development
- Frontend Development
- Backend Development
- RESTful API Design & Development
- Database Design & Management
- Authentication & Authorization (JWT, OAuth2)
- Version Control (Git & GitHub)
- Agile/Scrum Methodologies
- Problem-Solving & Team Collaboration

EXPERIENCE

Frontend Developer Internship | Foothill Technology Solutions, LLC. | 07/2025 - 01/2026

- Developed high-performance, responsive user interfaces using React.js and Tailwind CSS, ensuring full mobile responsiveness and cross-browser compatibility.
- Collaborated with senior engineers to implement modern development workflows, using Git for version control and actively participating in daily Scrum stand-ups.

Market Ready Developer Internship | GazaSkyGeeks | 05/2025 - 09/2025

- Built full-stack web applications in a simulated startup environment, following Agile/Scrum methodologies.
- Conducted code reviews and pair programming sessions, improving code quality and team collaboration.

AI Engineer | Fratello Software House | 11/2024 - 02/2025

- Collaborated with cross-functional teams to gather requirements for prompt engineering.
- Developed and refined prompts for AI models to enhance user interaction.

Frontend Development Intern (ReactJS) | Palsoft | 09/2024 - 02/2025

- Architected reusable React.js components and implemented state management solutions to enhance application performance.
- Refactored legacy codebases to improve maintainability and align with modern React best practices.

NodeJS Backend Developer | Oriented | 02/2024 - 05/2024

- Designed and deployed scalable RESTful APIs using Node.js and Express, handling secure authentication and data retrieval.
- Optimized MongoDB database schemas and queries, resulting in faster data processing and reduced server load.

EDUCATION

An-Najah National University | 05/2024

B.Sc.: Computer Engineering

PROJECTS

Travel and Accommodation Booking Platform - TravelBook

- Description:** A modern React-based booking application for managing hotels, rooms, bookings, and admin dashboard.
- Technologies:** React 19 + TypeScript, Vite, Material UI (MUI) with Dark/Light Theme, Redux Toolkit, React Query (TanStack), Formik + Yup, React Router DOM v7, Axios.
- Repository:** <https://github.com/BahaaAbbas/Travel-and-Accommodation-Booking-Platform>

ClinicFlow – Healthcare Visit Management System

- Description:** A full-stack healthcare application for managing patient visits, doctor workflows, and financial tracking with strict role-based access and real-world business rules.
- Key Features:** Visit booking and lifecycle management, single active visit per doctor, multiple treatments with automatic total calculation, advanced search, and analytics dashboard.
- Technologies:** React 19, React Router, Axios, Node.js, Express.js, MongoDB Atlas, JWT (HttpOnly Cookies), bcrypt, Postman, Vercel.
- Live Demo:** <https://clinic-flow-frontend.vercel.app>
- Repository:** <https://github.com/BahaaAbbas/ClinicFlow>

BahaaStockJournal

- Description:** A full-stack trading journal application built to log trades, analyze performance, and provide insights for traders.
- Technologies:** MERN Stack (MongoDB, Express.js, React, Node.js)
- Repository:** <https://github.com/BahaaAbbas/BahaaStockJournal>

Personal Finance Tracker

- Description:** A secure finance management web application that enables users to track income, expenses, and budgets with visual analytics. Implemented JWT and Google OAuth2 authentication and built RESTful APIs for transactions and budgets.
- Technologies:** MERN Stack (MongoDB, Express.js, React, Node.js), JWT, Google OAuth2, Postman
- Repository:** <https://github.com/BahaaAbbas/Personal-Finance-Tracker>

E-Commerce Website (Full-Stack)

- Description:** A comprehensive e-commerce platform featuring product listings, user authentication, shopping cart, and payment integration.
- Technologies:** MERN Stack (MongoDB, Express.js, React, Node.js)
- Repository:** <https://github.com/BahaaAbbas/E-Commerce>

TECHNOLOGIES

- Next.js, React.js, Redux Toolkit, React Query (TanStack Query), Formik, Yup, React Router DOM, Vite
- JavaScript (ES6+), TypeScript, HTML5, CSS3
- Tailwind CSS, Material UI (MUI)
- Node.js, Express.js
- MongoDB, MySQL, SQL
- Axios, Postman (API Development & Testing)
- Flutter
- Python, Java, C, C++

LANGUAGES

- Arabic, Native
- English, Advanced (C1)
